finishes off an unusually attractive front and design. Throughout the car considerations of comfort are predominant. The 120-inch wheel base with the compact eight-cylinder motor provides unusually ample leg room, while high body, sides and deep seats give the secure cozy sensation of sitting in, not on, the car, but in a nest of feathers, as it glides smoothly over the road.

Friday's meeting will be an interesting one in many ways and a large attendance is desired. The girls of the domestic science department of he Lemon City school will furnish ight refreshments and a special invication will be extended to the ladies.

Dr. Rosenbaum will give a brief outline of his work to the members of the association and there will also be an exhaustive discussion of the olan which the organization has been working on for an appropriation of \$5,000 for the purpose of seeking a remedy for sundry truck diseases in he southern states. This bill has already passed the house and is now before the senate. Should it become law the money will be expended along the east coast in an exhaustive campaign to obliterate a number of croubles that have been found among the tomato farms.

While the investigations will include all of the territory along the coast the experiments will be conducted at the government laboratory

Tokio, Jan. 22-The Japanese army has announced the invention of a new infantry rifle by Colonel Kijiro Nambu, an authority on ordnance, who has in the past invented several useful fire arms accessories.

The new rifle is said to be an improvement on the weapon invented by the late Lieutenant General Murata, which is now used by the Japanese

Its special features include a breaker muzzle, a longer range and improvements in the internal mechanisms. It is said to be more powerful in its firing capacity and more convenient to handle.

Colonel Nambu is now traveling in Europe, inspecting army ordnance in the entente countries with the special object of applying the lessons of the war to his new invention, which the Japanese army authorities claim to be the best and most effective of all firearms now used throughout the world.

# Kin Folks And Friends!

and Ten Toes -

I have ten fingers and ten toes. I can count that much, but I just can't count all my good friends down South here—they are far too many.

And I'm mighty proud of them. The men who make me, say you can tell real quality by the company one keeps.

Blood will tell. A good name and good breeding count most of all.

And that same, I reckon, applies to cigarettes, too. More and more gentlemen of the South are smoking me, SOVEREIGN, every day, because they know I come from good old Virginia and Carolina stock—the finest, grandest stock in all the world.

Quality is the thing, friend—you can't deny it. And I stand for Quality.

You Folks of the South KNOW good blood! You Folks of the South KNOW good tobacco!

That's why I am so loved among you all down here. So I am proud to say-

I am guaranteed by The American Tobacco & Buy me. If you don't like me return me to your dealer and get your money back. I have said it. A Southern gentleman is known the world over for keeping his word, and I have given you mine.

Buffalo Bill's Horse in Funeral March

The most conspicuous figure in the funeral procession of Buffalo Bill in Denver was his old horse, which he had ridden for some years. This photograph shows the horse being led through the streets of Denver, where an enormous crowd turned out, by one of the old friends of the famous scout and showman.

### BASEBALL CHATTER FOR THE STOVEPIPE LEAGUE

By H. H. Diddlebock.

occasions during the past month or so that there would be no strike of ball players, and although there have been columns written about the threats made by President Fultz of the Player's Fraternity that he would certainly call the players "out" unless the magnates agreed to his demands, the action taken recently by the presidents of both the National and American leagues bears out the draw down any more of the coin policy the writer predicted would be of the realm than the amateurish adopted, at the time of the visit here of playing manager Stailings. and ors, for all would receive the same. business manager Hapgood of the How do the men expect the stars

demands and kept bothering the mag-nates, they would get together and for years?

just what has happened. President Johnson of the American league took the first step and in a ago said that his league would not have any dealings in any way with any organization with which David the New York World said: Fultz had any connection. This action was drastic, but deemed neces-

lic statement. Those statements are the death knell of the baseball players' society, unless they follow out the latest made by Fultz and become members of the American Federation of Labor, if the labor organizations will give them a charter, for in that event the

magnates might renig on their pres-

ent stand and sop up the gravy, for The Herald has said on numerous there would be plenty of it, and the and one that they would not relish. ccasions during the past month or reason why the melon would be so

the presidents of both the National Cobb, Wagner, Bush, etc., would not

It was stated then, that if the Frat-Do they expect these men to give ernity persisted in their unreasonable up the soft things they have enjoyed

If they do they want to go to one decide to give the Fraternity no re- of the upper shelves and get some cognition whatever. And this is new dope, for the present brand they are using is not working right.

Captain Houston of the New York public statement made about ten days club, who is associated with Col. Rupert in the American league venture, in an interview published recently in staken to the training camps in the harmless and doesn't gripe.

"I have no quarrel with unions. "I have been associated with union sary, and President Tener of the na- labor for many years, and our relational league has made the same pubant. In all my business career I have fought to the last ditch to avert strikes. A strike is a terrible thing. I do not believe if Mr. Fultz realized the seriousness of it or ever had been connected with a strike that he would be willing to assume the responsibility of bringing such a thing about.

"No man with a conscience can make himself responsible for a strike without preparing for nerve-racking days and sleepless nights. In case of an unsuccessful strike the leader is justly or unjustly blamed, and such a strike as this could not succeed. It would fall of its own weight. I firmly believe that there will be no strike, but if the players actually should go out without any just grievances, as they would, there are numberless ways in which the club owners could protect themselves and their invest-

It would not be a hard matter to guess at one plan that would be adopted, in any event considered by the men who have their gold invested in

Men connected with the Fraternity have said openly that the overhead expenses on the huge baseball plants with nothing coming in to offset them would be a greater strain on the treasuries of the magnates than they

The problem therefore to be solved is to devise some means to reduce the overhead and make some arrangements to take in some money at the gates of the ball parks.

They might try this by cutting out the spring training trips entirely, thus saving on hotel and railroad bills, and turn their parks into training) camps, and have two league teams work out there in the late spring and shorten the season.

Players do not receive any money while training, but the fans in the different league cities would be quite willing to pay to see them work out.

By adopting this system the sea-son could be shortened and yet the public would see some good baseball -and the players would be paying for it, by drawing down checks for a lesser period of time.

Under this method the teams in the two leagues, where there are two in a city, could work out together

Calomel is quicksilver and acts like dynamite on your liver.

# **Attractive Cocoanut Grove**

\$35,000

"MILLIONAIRES' ROW" is within a stone's throw of several excellent lots that can be bought at extremely low prices, ranging from \$425 to \$675. They are all conveniently located and supplied with running water and electric light.

Whether as an investment or a home site it will pay you to see these, for when these are gone there can be no more at these prices.

OVERLOOKING THE BAY, on the highest point in the entire section is one of the most desirable lots in all Cocoanut

There are a number of most attractive trees, including several pretty mangoes and limes, a Spanish cedar, leebek, and last and best of all, an immense, beautiful rubber tree, all of which form a natural building site.

The lot-100x150-is supplied with fine, pure running water and electric light, and has use of a private right-ofway to the water.

There is nothing in Cocoanut Grove to equal it for less than double the price.

ON MAIN ROAD is a lot 100x260 that will most assuredly be worth double its present price before the season is over.

It is in an excellent neighborhood for a home and offers an unusual opportunity for investment.

BAY FRONTS with full riparian rights are very limited in Cocoanut Grove, and when the few that are now being offered are gone, there is no telling what you will have to pay for these, the most desirable building sites in all south

Those that are at all available run in price from \$12,000 for one with a frontage of 100 feet on the bay and a depth of 1,100 feet, up to \$35,000 for one of the larger and more lesirable tracts.

If you are at all interested in a Bay Front property, by all means act at once, for delay will be expensive and promptness will be well rewarded in case you are buying as

# FROM FALLING OUT

Ever count the dead hairs in your comb and brush? They are nature's warning of future baldness and proof that the dangerous dandruff germ is

busy on your scalp. Dr. Sangerbund, the famous Paris specialist, first discovered that dandruff and falling hair are caused by a microbe. Then came the discovery of the value of the real Parisian Sage (liquid form) in destroying the dandruff germ and promptly preventing the further loss of hair. The effect of only three days' use of Parisian Sage is simply marvelous, and the American people have now awakened to the fact that they can be quickly rid of dandruff and save their hair by using Parisian Sage.

Parisian Sage is sold by Elbre's Pharmacy and good druggists every-where. It's inexpensive, daintily perfumed, free from stickiness, and will surely cause hair to grow soft, lustrous and really seem twice as

Ninety-one feet is the reported length of a pumpkin vine grown at Lordsburg, Cal., and trought to the Pomona (Cal.) chamber of commerce

man, the Georgia-Alabama league leader. Bittle is to be tried out by the Mobile Southern league glub next season and Flynn is to go to the San Antonio team of the Texas league..

At 10 a.m. each day of sale on the grounds.

Drive out and inspect these tracts in advance of the sale.

Our Autos will take interested persons to the sales without charge, leaving this office at 9 to 9:30 each morning. Persons having no other conveyance should call early and secure free auto tickets for the Round Trip, and avoid the rush.

Many great bargains will be secured. Can you afford to miss them.

The location of this property is beyond question the most desirable that could be found, as it is built up with fine residences. While the present owners realize that these lots will bring a great deal more next year than at this time, nevertheless they have decided to place them on the market at once, and to sell them at public auction without reserve. It will be the greatest opportunity ever offered to the people of Greater Miami and surrounding towns to buy such high grade large and choice building lots at their own price.

—Sales Will Be Conducted by—

Real Estate Auctioneers

of 47 West 34th St. New York City

Respirator Saves French From German Gas

The newest invention of the French to save their soldiers from the deadly gas the Germans turn loose in the trenches is a respirator attached to the mask. If a soldier is overcome he need not breathe the gas for J. F. Jaudon, and E. K. Jaudon, do some time any way. Air is supplied to him pure through the respirator, hereby associate ourselves for the and he thus has a much greater chance to save his life,

# Bethlehem's Bid on Shells for the United States Navy

To the American People:

The Secretary of the Navy has awarded contracts amounting to over \$3,000,000 to a British bidder for 14 and 16-inch projectiles for the Navy, for the reason that the British firm offered prices very much below those of American manufacturers, including ourselves.

We know nothing of the basis upon which the British bids were made, but the public is entitled to know the facts upon which we ourselves bid for this work.

> Two years ago we took contracts to make 4,200 14-inch shells at a price of \$1,515,000 (with heavy penalties for delayed delivery). Despite the fact that all our experience and facilities have been strained to fulfill these contracts, up to now not a single shell has been accepted by the Government, although, on the work

We have expended in wages, materials, etc. .....\$447,881 Expended in making tests for the Government ...... 75,000 Making our total actual expenditure up to date ......\$522,881

And we have not received a SINGLE DOLLAR on these contracts

In addition literal enforcement of the contract might involve payment of penalties for delayed delivery already amounting to \$678,016.

Navy Department tests are now so severe that neither we nor, so far as we know, any other manufacturers have yet been able to produce in quantity 14-inch shells which will meet them.

In the light of our experience, and having no other basis, we bid for 16-inch shells approximately the same rate per pound as that upon which the Navy Department actually awarded a 14-inch shell contract one year ago.

EUGENE G. GRACE, President CHAS. M. SCHWAB, Chairman Bethlehem Steel Company
